About This Game

A local multiplayer action game where skills and tactics decide who wins.

Each player controls of a "kurve", a curve that always moves forward and is only stopped when crashing into another object. Whenever an opponent crashes while you're still in the game, you score a point. Get to the score limit first to win the game!

Achtung die Kugel re-imagines the old classic "Achtung die Kurve". Achtung die Kugel bends achtung-space to kugel-space (sphere-space) and brings the same classic action and skillful gameplay you would expect from an achtung game.

Here's what's in the package:

- **Action packed gameplay:** one small mistake and you're out for the round!
- Achtung die Kugel is played on a **Sphere!!**
- **Jumps!** Get out of tight situations or get right in front of an opponent with this skill-intensive feature.
- **Easy to learn - hard to master:** you can only go left, right or jump. But it takes lots of skill and tactics if you want to win the round!
- Play **up to 4 players** in two teams or free for all.

- Different **maps** to choose from.

- **Xbox controller support**. Definitely plays best with controllers!

- **Party mode**. Hate waiting for the end of each round? In party mode you respawn immediately!

- Many **settings** for your ultimate achtung-on-a-sphere experience!

We really hope you like it!

Konec hry!

Title: Achtung die Kugel!
Genre: Action, Casual, Indie
Developer:
Erik Sillén, Fredrik Carlsson, Philip Bretschneider
Publisher:

Release Date: 11 Oct, 2018

a09c17d780
